SNI's new name and logo – New name: **Stateside Network International (SNI)** - we are keeping the same initials – we feel it will encompass *all* of our programs and not just nursing. The website will be updated monthly. We plan to launch the new website October, 2011. Go to www.statesideinternational.com

STUDY IN AMERICA: Want to come to America for a study program that also allows you to work? The Master's Program is your best opportunity. F-1 student visa. Bachelor programs are available in the US but you cannot work during the first year unless it is on campus. Once graduated from any Bachelor's program or any Master's program you are eligible for the OPT. You can then work for one-year in a related field and get US experience.

NEW YORK CITY - International students - Click on the education page on the website for details on studying in NYC. Externships available – a chance to get good experience. English courses available. M-1 Student visa – cannot work with pay on this visa. Great opportunity to live and work in NYC. Master's Degree program now available with 6-months in Spain and 6-months in NYC. All students will take part in an externship program. You cannot work at a paid position in this program. **Check our website or contact SNI for details.**

Salt Lake City, Utah - programs are Masters in Business Administration; Masters in Nursing Administration and Masters in Health Care Administration.

If accepted into any of the above Master's Programs you are allowed to work 20-40-hours a week while going to school. This is part of the curriculum. The Master's Degree *helps* qualify you for the H-1B visa and sometimes the EB2 visa! We cannot promise jobs but the college is there to guide you. **SNI and the college cannot**

guarantee the F-1 Student Visa – this is up to the Consular Officer at the American Embassy when you go for your interview. If you are under petition for a green card it is worth trying for the F-1 Visa program. Our students have been lucky with visas lately which is always good news. **Apply now for December or January intake.** (If you are a nurse and have a US license and are accepted into the Master's Program - apply for endorsement into Utah as soon as you can.)

AUSTRALIA/NEW ZEALAND NURSING JOBS: Placement in Australia and New Zealand getting better but the request is for “*western*” trained nurses. Nurses must have a minimum of 2-3 years current hospital experience. These positions are available for a start date as soon as licensure and the visa process is completed.

Rural and Remote Australia: (Adventure Time☺). Operating Room/ theater nurses; *midwives* – RN positions. Also: emergency, chronic disease, aged care, mental health and others. **Current need for Enrolled Nurses (LPN) in Long Term, Aged Care and ER. Excellent salary and benefits. One-year current experience needed for the remote area hospitals. IELTS required. If you are an Enrolled Nurse or LPN, this is for you!**

CHINA: Study in Nanjing, China. China Pharmaceutical University (CPU) has signed a contract with SNI to recruit students for their study programs. All kinds of programs are offered including Chinese language programs, short-term programs and advanced degree programs – many of the advanced degree programs are taught in English. The university is in Nanjing – a *lovely* place that I have visited. Contact SNI for more details.

UK PROGRAMS:

We can now offer all of the following programs in the UK through our colleagues:

- 1) Bsc in nursing including ONP (adaptation) leading to Tier 3 working visa. Job placements included.
- 2) Diploma level 3 in Health and Social care (Tier 4) – you can work while studying. Job placement help included.
- 3) IELTS required – minimum 6.5 overall band. (If you were trained in English speaking countries IELTS not needed to enter these programs.)
- 4) September, October (2011) and February (2012) Intake.
- 5) Colleges and universities within 40-mile radius of London.
- 6) Care Giver Program.

Magna Carta College located in Oxford, UK - affiliated with University of Wales. We are pleased to offer the opportunity to study at the **Magna Carta College in Oxford, UK.** Study for your Master's Degree. The rules about working while going to school have changed. Check with SNI. **Magna Carta College now offers a distance learning degree (on-line)** and your degree certificate will be issued through the University of Wales. A great opportunity to get a ‘western degree’ without traveling overseas to study. **Enroll now.**

BBSI and Elite Training Group - Bournemouth, UK offers a combination of English (24-36 weeks) plus an 8-week Introduction to the UK Health Care System with an optional extra 4-weeks. Once completed you will be issued a certificate that allows you to work in the health care industry - however, not as a registered nurse until you are registered with the NMC. This course will help you with your registration.

You are allowed to work 10-hours a week while attending any program at BBSI. You cannot work while going through the nurse training – at the end of the nurse training course you will be introduced to employment agencies. Go to our website for more details. You will need a work visa to allow you to stay and work in the UK. *The Elite Nurse Training Program will be taught by top instructors in the UK – this is an excellent program* Why not get a group together and come with your friends! BBSI offers **many** non-nursing study programs – including new business oriented mini business English course designed for business professionals. See our website for BBSI information. Great programs in the UK!

Please note – before signing up for any educational program in the UK – make sure you know all of the new rules and regulations by going to the UK government website or contacting SNI

NEW ZEALAND:

If IELTS is required a “7” in every band is needed - if you don’t have these levels, there is an English program you can complete while working part-time and also concurrently working on gaining RN licensure for Australia and NZ . Send us your resume.

IELTS on-line. Excellent program available – highly recommended. Go to our website and click on training

North Shore International Academy (NSIA) –This is a great program – spread the word! It sounds like such a fun course. **You are allowed to work up to 20-hours a week to help with expenses!**

The Academy specializes in the “Hospitality Industry” and offers courses in:

- Hotel and Hospitality Management - one-year program – (most popular course)
- Hospitality Management - two-year program
- International Culinary Arts - two-year program
- English and Business courses

All the above courses are diploma or certificate courses.

Some of your current school credits may be transferable.

The Academy has a career service department to assist you with job leads while attending any of the programs.

Home stay is available if needed.

Help with obtaining the student visa for New Zealand.

All courses at NSIA are NZQA approved – no need to register with any government body other than for the visa.

Check out the information on our website. The latest newsletter from the academy is available.

University College of Learning, NZ:

We continue to offer nursing programs in New Zealand – a 1-year Diploma to BSN and a three year BSN program – in affiliation with our partner UCOL. Please contact us – or if you contact them directly mention SNI’s name and let us know. This is an excellent opportunity to further your education to obtain your BSN – always a good thing – even if you have the BSN in your home country, taking a 1-year BSN course in New Zealand is an excellent way to improve your chances of placement in a Western/English speaking country! Get your NZ license at the end of the course – license reciprocal *with Australia!* Need IELTS? Get while in NZ. **UCOL also offers many other exciting study programs not related to nursing – click on education on the website.**

AMERICA VISA UPDATE!

RETROGRESSION: - **Nothing new to report.** Contact the immigration attorney that filed paperwork for your I-140 visa for updates. The economy has picked up but no change for the international nursing program.

H-1B VISAS: Not an easy visa to get and even though there are visas available, hospitals do not want to hire under this visa as there is no guarantee that it will be issued. The **minimum** requirements for a nurse under the H-1B are a Bachelor degree (hard to get with just this degree) or higher, and working in a **highly specialized field** with progressive work and education history. Management positions qualify. A Master’s Degree increases the chance of getting the H-1B, but still no guarantee.

F-1 STUDENT VISA: This is your ‘best bet’ if you want to come to America and study and work part-time. The Master’s Degree Program we currently offer is located in Salt Lake City, Utah and we plan on adding more programs. **These programs are open to all students not just nurses.** If you are working or living in countries other than the Philippines or India – the F-1 visa is easier to get.

M-1 Student Visa: This is the visa for the study program in NYC. Externships offered. Contact SNI for details.

ENGLISH: It is recommended that you complete the IELTS exam – this exam is accepted throughout the world and is good for two years...if you don’t have it, sign up for the IELTS program in the USA or go to our website and click on the training link.

Credentialing Evaluation Service (CES): If you do *not* have an official Bachelor’s degree from your home country and want to study and/or work in America and think you have the equivalent, contact CES and have them evaluate your transcripts. Be sure to send all certificates and transcript of any and all training when you apply with us..

Immigration Consultant:

We can offer consultant services through the following immigration attorneys: Mr. James Dunn and Mr. David Nachman for US immigration help; Ms. Veronique Malka for help with Canadian immigration. Check our website to set up an appointment for a consultation.

Our Current Colleagues:

Watch for other colleagues and opportunities in the next newsletter.

We are excited about the new opportunities for everyone (especially the short courses in China and the new programs in the UK) – please tell your family and friends and forward the newsletter to all those you know – we have something for everyone! Let us know what you think about our new logo and website!

NEW! NEW! NEW!

SOMETHING NEW FOR ALL ADVERTISERS!

We will have advertising pages on the website for you to publish your services, school, agency or company. We will include your advertisement in every newsletter that we send out, plus place it on our website. Let us help you save time and money, reach a bigger market and get your company name and information out to all of our colleagues and our extensive data base through our newsletter, plus the promotion of your company on our website.

All legitimate advertisers are welcome.

For all details about the opportunities SNI offers go to our website www.statesideinternational.com.

We encourage you to use the services of our advertisers and check out their programs and/or services.

Patricia Decker, Director, SNI Pat@statesideinternational.com
